

Doug's Dharma Index

Weekly Video Update Checklist

Part 1: Get the New Entry from Claude

1. Open a new chat in your Claude project (Doug's Dharma Index)
2. Upload your current `dougs_dharma_index.json` file
3. Paste this to Claude:

Please add this new video to the index:

URL: [paste URL]
Title: [paste title]
Date: [paste date]
Description: [paste full description]

Give me a complete updated JSON file to download.

4. Review the draft entry Claude shows you. Check:
 - Topics look right?
 - All sutta refs captured?
 - Related videos and other refs correct?
 - Summary accurate?
 5. Tell Claude to fix anything that needs changing
 6. Download the updated JSON file
 7. Replace your local `dougs_dharma_index.json` with the new one
-

Part 2: Build and Publish

8. Double-click `update_and_build.command`
This runs the build and reminds you of the next steps.
First time? You may need to right-click, then choose Open.
9. Open **GitHub Desktop**
10. Type a summary: Added new video: [Title]
11. Click **Commit to main**
12. Click **Push origin**

Done! Your site updates within a minute or two.

Quick Troubleshooting

Build fails? Open `dougs_dharma_index.json` in VS Code and look for red underlines.
Common issues: missing comma, extra comma, unclosed quote.

GitHub Desktop shows no changes? Make sure you saved the new JSON file into the right folder.

Site not updating? Give it 2–3 minutes. Check github.com to confirm the push went through.
